PROFESSIONAL SUMMARY

Full Stack Developer with over 4 years of experience building web and mobile applications across both backend and frontend. Skilled in Laravel, React, Angular, and Python. I've led projects from the ground up, defining mockups, setting up database structures, and managing delivery timelines. I've also worked on existing platforms by integrating new modules, optimizing queries, and testing functionality. I follow Agile methodologies like Scrum and stay involved in every stage of development, always focused on delivering clean, efficient, and scalable solutions.

EDUCATION

Universidad Politécnica de Victoria
BSc in Information Technologies Engineering

Ciudad Victoria, Tamaulipas
Graduated: 2021

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript (ES6+), TypeScript, Python

Frameworks and Libraries: Laravel, React, Angular, Ionic, jQuery

Databases: MySQL (procedures, complex joins), PostgreSQL, Firebase (Realtime DB and Firestore)

Tools and Technologies: Git, Docker (dev environments), REST APIs, Firebase Auth, Checkout Pro (Mercado Pago), Figma (UI design and prototyping), Jira, Bitbucket, ClickUp, Trello. Certifications: AWS Cloud Practitioner Essentials, Linux Unhatched.

PROFESSIONAL EXPERIENCE

Full Stack Web and Mobile Developer

Feb 2022 – Jul 2026

Edu Media TICS (Remote)

Ciudad Victoria, Tamaulipas

Developed full-stack projects with Laravel (frontend and backend modules), React (dashboards and analytics modules), and Angular/Ionic (hybrid systems). Migrated a legacy PHP system to Laravel, modernizing its architecture.

Led the complete development of a web platform, defining architecture, tech stack, and task management strategy.

Designed a hybrid mobile app with Ionic to complement a core web system, focused on improving user experience.

Freelance Full Stack Web Developer

Aug 2024 – Jun 2025

Softbot (Hybrid)

Ciudad Victoria, Tamaulipas

Developed dynamic React modules with hooks and reusable components. Worked with Python microservices using Flask and Socket.

Managed PostgreSQL with JSONB fields and stored functions.

Deployed Dockerized environments for development and testing. Integrated REST APIs with secure token-based authentication.

Web and Mobile Developer

Aug 2021 – Dec 2021

Motortrax (Remote)

Monterrey, Nuevo León

Implemented new features in Ionic/Angular hybrid apps and Laravel-based backends. Built responsive UI components with Bootstrap and SCSS.

Junior Web Developer

Nov 2019 – Dec 2019

Subsecretaría de Innovación y Tecnologías de la Información

Ciudad Victoria, Tamaulipas

Developed an admin system and digital repository using CakePHP and MySQL. Refactored existing features and ensured optimal performance through testing and debugging.
